

Science Communication Essentials (Grades 7–12) Education Standards

[LINK: Education Standards]

This program aligns with the following Next Generation Science Standards (NGSS):

- **MS-ETS1-3 / HS-ETS1-3** – *Analyze the advantages and limitations of different modes of communication (written, visual, oral, digital) to convey scientific information.*
- **MS-LS2-5 / HS-LS2-7** – *Use evidence to construct explanations about how organisms interact with ecosystems, which can then be translated into clear, accurate science communication.*
- **MS-LS1-6 / HS-LS1-7** – *Construct explanations or arguments based on empirical evidence about how biological phenomena can be communicated effectively to various audiences.*
